- State-of-the-art laboratories.

### QUAID-E-AWAM UNIVERSITY OF ENGINEERING, SCIENCE & TECHNOLOGY (QUEST)

### VISION

To produce the professional graduates to cater the socio-economic requirements of the national and international market for sustainable development.

### MISSION

To provide quality and state-of-art education to the students in the prescribed areas of Engineering, Science & Technology, in order to make them outstanding professional and better human being; so that they become capable of contributing effectively and amicably towards sustainable development.

## PROSPECTUS-2022

### MESSAGE

It is my sheer bliss to assume the privileged position of Vice-Chancellor QUEST Nawabshah, an institution from where I graduated and then started my career. I am highly indebted to Allah Almighty for His continued blessings on me. I am always grateful to all my colleagues for supporting me in this role.

The QUEST is a recognized institution across the globe, and its graduates contribute significantly and positively to both national and international academic, social, and economic development.

The QUEST is one of the leading public sector universities of Pakistan which is committed to solve many of the diverse challenges that we face today. Our university provides a platform for promising minds to join their hands and serve the world around us. For achieving this, we provide the right balance of faculty, services, technology, and cultures to encourage both learners and teachers to develop, explore and discover new ideas. Our dream is to make our university the country's best educational institution.

The QUEST is expanding its global reach to look more opportunities and collaborate with various educational and professional institutions. In this regard, several MOUs have been signed with many renowned universities of different countries such as the USA, Turkey, Malaysia, Thailand, China, Indonesia, and Germany. Our university is equipped with state-of-the-art equipment, a modern library and other facilities in order to achieve academic excellence and meet international academic standards.

In QUEST, all stakeholders, i.e., educators, administrators, students, and employees are working as a team with an ownership attitude in the ongoing process of raising the university's academic standards. I truly appreciate and accept my team members' tremendous cooperation.

We strive for all this to take place in a free, peaceful, and balanced environment. We believe that cultivating good ideals of morality, integrity, fairness, and respect for each other is indispensable for the studies. We also believe that young people should have a role in defining their destinies. We help them to explore their abilities, plan and make a positive impact in this world. Pakistan's high youth population and energy provides us with a wonderful opportunity to play a role in inspiring the country's youth to be passionate and encourages them to provide vital services to society.

I urge all the stakeholders to play their role in the progress of the university with utmost dedication. Together, we will make it as one of the top universities in the world.

**Prof. Dr. Saleem Raza Samo**  
Vice Chancellor
